## Profile

I'm a front end web developer passionate about the web and making it accessible to everyone. I possess a strong attention to detail, great eye for design skills, excellent analytical skills, ability to work in team environments and a willingness to learn. Aiming to use my knowledge of concepts I have learned through self-study and hard work to provide real world solutions to real world problems.

## Education

03/2019 – 12/23
